OUR STORY

The PCOR Partnership is funded by the U.S. Department of Energy National Energy Technology Laboratory, the North Dakota Industrial Commission Oil and Gas Research Program and Lignite Research Program, and more than 250 public and private partners. It is led by the University of North Dakota Energy & Environmental Research Center (EERC), with support from the University of Wyoming (UW) School of Energy Resources and the University of Alaska Fairbanks (UAF) Institute of Northern Engineering.

The partnership focuses on acceleration of CCUS deployment throughout the United States, Canada, and beyond.

CARBON MANAGEMENT

For over 20 years, the PCOR Partnership has been providing technical and regulatory expertise in the management of carbon dioxide, including dedicated and associated storage. In an increasingly carbon-constrained world, our knowledge and resources are making a difference.
